

BIKE GREASE

Long-life grease

Description

High-performance, long-lasting grease based on calcium for optimum lubrication. Maximum adhesive power and absolute resistance to water. Optimum corrosion and wear protection even under extreme loads. Excellent pressure absorption capacity. Increases the duration of lubrication intervals.

Field of application

Ideal for lubricating bearings, wheel bearings, joints and headsets.

Notes

Neutral in contact with elastomers and seals and prevents galvanic corrosion

Product features

- ideal for joints, hubs and headsets
- excellent pressure resistance
- extremely water-repellent
- easy to apply thanks to integrated brush
- QR code on the label for more product details
- carbon tested
